DIANE DENNIS

Founder and President

WELCOME

Age at Home Service, a compassionate Senior Care Management agency. Our mission is to serve the needs and goals of our seniors and their families and offer support through the changes that occur in the aging process.

Our services include assessment, care plans, medicine management, advocacy, and assisting all family members involved in understanding their options when their loved one's healthcare status changes.

We plan and coordinate care for seniors to improve their quality of life and maintain their independence. We are diligent in preventing common illnesses and injuries seniors typically incur.

We are trained in Nursing, Gerontology, Pharmacology, and Psychology. We specialize in issues related to aging and eldercare.

We are called to serve the senior population with grace and compassion. Our goal is to assist families in navigating complicated health and life choices with ease, compassion, and confidence.
